We are still trying to create

Sun Dragons were the first team to try out the latest new Dragon Boat

This “Millennium” will be easily distinguished by the scale pattern on its sides. As well as providing teams with more opportunities to train in a boat that is commonly used for regattas, the Millennium also has the advantage of being built with a plastic core – so it can live on the water through the winter, as well.

Waiving is important

Completing waivers is not a matter of the club raising fees. It is about providing the correct protection and insurance cover for everyone in the boat or on the dock.

If you are introducing new members or welcoming aboard your team – make sure they have signed the waiver and paid the \$10 for the insurance.
