

When you contact 911 tell the dispatcher, you need an ambulance at,
“Common Place Names, Fort Langley Canoe Club #X.”

The pull-out spots on the map are registered in the Emergency Health Services database of **COMMON PLACE NAMES**. When you contact 911 tell the operator you need an ambulance at . . . “Common Place Names, Fort Langley Canoe Club, pull-out number X”. For example, the Salmon River confluence, is “Common Place Names, Fort Langley Canoe Club, pull-out number 7”

In all cases you will need to send someone to the nearest main road to direct emergency vehicles to the pull-out area.

If, and only if, the dispatcher is unsuccessful in pulling up the Common Place Names data use the descriptions below.
